

School Is for Losers

Steel Train

Can you pull me out, I think I might, I think I'm drowning
Oh, there was a cool boy, there was a clown, I was alone
And that boy he told me just to give it all up now
Just playing the fool, he wanted me too
I'm not going back to school I took that van to Austin, Dallas, Texas, Mobile, Alabama
And I slept sound and in that way I never really came home
And when you leave yourself on the side of that highway
Oh, forever you run, forever free slaves Oh, I will say, whoa, a tornado in the sky
I know, I know you wanted to
Oh, I'll tell you what I want
I wanna summer til the sun burns out I'll follow into the night
Come on, come on, swim there with me
Oh, I'll tell you what I want
I wanna summer til the sun burns Can you pull me out, I think I'm drowning
There was that cool boy, he did fall way down that hole
And do you, do you, do you see me down that highway?
You're home from school, playing the fool And I will say, whoa, a tornado in the sky
I know, I know you wanted to
Oh, I'll tell you what I want
I wanna summer til the sun burns out I'll follow into the night
Come on, come on, swim there with me
Oh, I'll tell you what I want
I wanna summer til the sun burns
