Doing It (feat. Rita Ora)

Charli XCX

We're staying all night
We never slow down
I think we better do it like we're doing it now
It's been a long time
Since we've been around
So come on, let's keep doing it like we're doing it
Doing it like we're doing it

Waited so long just to be here
And now we're bringing this back to life, yeah, we're bringing this back to life
Want you to know how I miss ya
And now I got you right by my side, yeah, I got you right by my side

Locked inside my veins you're in my blood, in my blood
And we united forevermore

We're staying all night
We never slow down
I think we better do it like we're doing it now
It's been a long time
Since we've been around
So come on, let's keep doing it like we're doing it
Doing it like we're doing it now

Keep doing it like we're doing it
Doing it like we're doing it

Friends like a team in a circle
We're together we're so alive, yeah, together we're so alive
Joy like a jewel and a sparkle
Know that I got your back for life, yeah, I got your back for life

Keep doing it like we're doing it
Doing it like we're doing it now

All night long
We dancing to this song
We doing it, we going on and on, on and on
All night long
We dancing to this song

We doing it, we going on and on, on and on

(All night long
We dancing to this song)
