

Failure's Not Flattering

New Found Glory

What's your problem?
Can't you see it?
And you go and blow it
Like everyone knows you will Don't leave this rock unturned
'Cause you could like what you find
A sure-shot hit with your name attached to it
Will you keep me in mind? I won't cast the first stone or leave the first mark
But I will leave a lasting impression
You believe what you want
And you've said what's been said
And I do hope you learn a lesson
Oh, I do hope you learn a lesson What's your problem?
Can't you see it?
And you go and blow it
Like everyone knows you will Don't look too hard for what you want
'Cause it could be on the tip of your tongue
You're holding back like there's nothing left to it
Could this be a false alarm? I won't cast the first stone or leave the first mark
But I will leave a lasting impression
You believe what you want
And you've said what's been said
And I do hope you learn a lesson
Oh, I do hope you learn a lesson What's your problem?
Can't you see it?
And you go and blow it
Like everyone knows you will Why don't you get it together now?
Failure's not flattering
When will you show yourself?
When will you shed your shell?
Oh, I do hope you learn a lesson
Oh, you'll never learn your lesson What's your problem?
Can't you see it?
And you go and blow it
Like everyone knows you will What's your problem?
Can't you see it?
And you go and blow it
Like everyone knows you will
