Wolf

Tailor

Rain falls down my cheek
I wish I , I wish I knew better then I know now
Forrest rain coming down my soul

15 seconds ago

2x As the darkness fills my soul
The way I donâ€™t know I donâ€™t know Cause everything you do is oh so so

As the wolf comes running and running we did.

Rain falls down my cheek
I remember it well when you said goodbye
Holding my hand so tightly
my phone burns down my soul
as the wolf comes running and running we did
