

Silver Rocket

Sonic Youth

Snake in it jack into the wall
TV amp on fire blowin' in the hall
Gun your sled close your peeping toms
Turbo organizer crankin' on the knob You got it, you ride the silver rocket
I can't stop it, a burnin' hole in your pocket Well hit the power psycho helmets on
You got to splice your halo take it to the moon
Lymphoid clamor fueling up the hammer
You got to fake out the robot and pulse up the zoom You got it, you ride the silver rocket
I can't stop it, a burnin' hole in your pocket I can't forget the flashing, can't forget the smashing
The sending and the bending, the ampisphere re-entry
You gotta have the time got a letter in your mind
Gotta heart injection that you got yourself a line You got it you ride the silver rocket
I can't stop it, a burnin' hole in your pocket
