

The Doctor Is Dying

Chameleon Circuit

It is returning through the dark
Doctor, you have met your mark.
Your song is ending, so don't cry,
When you hear him knock four times. You're going to regenerate,
Some new man saunters away,
No time for games tonight,
We fight for the fate of all mankind. I could do so much more... The Time Lords returning, the earth will be
burning,
The last white point star is a trap for the Master.
The Doctor is dying, the Doctor is dying.
The Doctor is dying, the Doctor is dying.
