

Airplane

Plain White T's

Airplane, airplane
Put me to sleep again
Take me away
Off to a dream And then I'll fly
So high across the sky
And wake in a new place
Where mistakes of my past are erased Don't drop me
Don't stop me
Just hold me
So cozy Airplane, airplane
Don't you go down today
Take me away
Off to a better place You know
Just where I'd like to go
Please get me there on time
Don't delay me from losing my mind Don't drop me
Don't stop me
Just hold me Airplane, airplane
Don't you go down today
Take me away
Off to a better place You know
Just where I'd like to go
Please get me there real soon
I've important things that I must do
