Diamonds

Janet Jackson

You told me you love me
You told me you care
But when I'm around you
It's like I'm not there
I need a reminder
Something I can see
Something on my finger
Shines so brightly
Don't you know
Diamonds are a girl's best friend
When you go
They stay with me until the end
Don't you know
Diamonds are a girl's best, best friend
When you go
They stay with me until the end
Don't want your money
Don't want your key
Diamonds, love don't come for free
Don't want your money
Don't want your key
Diamonds, love don't come for free
They say you need some roses
But roses do die
You gave me some candy
It melted, nice try
I'm not that demanding
I have simple taste
I just want a token
That can't go to waste
Diamonds
Don't want your money
Don't want your key
Don't you know
Diamonds are a girl's best friend
Don't want your money
Don't want your key
Don't want your money
Don't want your key

Diamonds, love don't come for free
