

# You Look Good

## Lady Antebellum

[Verse 1: Charles Kelley & Hillary Scott]

On a boat, on a beach

In the water, in the sand, in the back of a bar

Cold beer in your hand

Breaking hearts, breaking necks

When we rolling down the street, heads turning all day when they see you with me

I'm thinking everybody better stand in line

'Cause they need to know that your body's coming with me tonight[Chorus: Charles Kelley & Hillary Scott]

They're like, "hey, who that there with the shades?"

Like oh, the way you move to the bass

Hold up

Whole room gets to spinnin' from the second that you walk in

And baby you look good all day, all night

You look good, so fresh, so fine

You look good, got everybody watching you like cameras in Hollywood

Baby you look good

Aw baby you look good[Verse 2: Charles Kelley & Hillary Scott]

Black dress, 2 the 9s, New Year's in a pent

From the floor, to the roof, make the skyline spin

Yeah, you're killing me boy in your black-faded jeans

Ain't gotta work hard when you're smilin' at me[Chorus: Charles Kelley & Hillary Scott]

Like, "hey, who that there with the shades?"

Like oh, the way you move to the bass

Hold up

Whole room gets to spinnin' from the second that you walk in

And baby you look good all day, all night

You look good, so fresh, so fine

You look good, got everybody watching you like cameras in Hollywood

Baby you look good

Aw baby you look good[Bridge: Hillary Scott]

I'm thinking everybody better stand in line

'Cause they need to know that your body's coming with me tonight[Chorus: Charles Kelley & Hillary Scott]

They're like, "hey, who that there with the shades?"

Like oh, the way you move to the bass

Hold up

Whole room gets to spinnin' from the second that you walk in

And baby you look good all day, all night

You look good, so fresh, so fine

You look good, got everybody watching you like cameras in Hollywood

Baby you look good  
Come on baby you look good  
You look good  
Baby you look good
