

# The Caudal Lure

## Karnivool

Ask a question  
Are the answers loaded like this one?  
You better pull yourself along  
Time is precious and you must act  
This isn't inevitable  
I still stand  
I won't get back in my cell  
I will not let a Saviour define my freedom  
I'm going out now  
No-one is gonna save us from this

We should have known better not to taste this wine we swallow  
For all and more, we set our recourse for tomorrow  
Now we could mend, we will awake this snake and follow

Shatter the hourglass and what do you see  
Memories like grains of sand are blowing away  
Is this who you are? A product of fear  
The shell of a man who lost his innocence

Hold your nerve  
Keep your focus  
There's something peculiar about the way you pay to save your soul  
You forfeit your dream

Just let it go

We should have known better not to drink this wine we swallow  
For all and more, we set our recourse for tomorrow  
Now here we stand, we will embrace it or be defiant  
For the moment, taken by these chemicals you can't control

Ask the question  
Ask the question  
Ask the question

We should have known better not to drink this wine we swallow  
For all and more, we set our recourse for tomorrow  
Now we could mend, we will embrace it or be defiant

Silent moment, induced by these chemicals you can't control

(Where's your God?  
Where's your God at? Alone)  
(Where's your God?  
Where's your God at? Alone)

(Where's your God?  
Where's your God at? Alone)  
(Where's your God?  
(Where's your God at? Alone)
