Far Away

By The Tree

Well all my thoughts and this confusion
Brings me down to this conclusion
That I'm a man of conviction
I've wasted time out of window panes
No place to go to recreate
The feelings that I have inside
When I spend time with youWe are never alone
Bringin' down angels today
His promises are true he's always
Closer than we're far awayT-t-t-turn it up
I want to feel alright
Like a shining star
On a summer night
Heavy glow of rock and roll
Pumping through your stereo
Makes me want to singJesus you give us a future
The plans God made
Are for hope and of love
Lord you're so good to us
