

Get Thru This

Art of Dying

I've seen better days, yeah
So says the mirror
It's hard to find divinity
When you're the king of men If I can get thru this
I can get thru anything
If I can make it thru this
I can get thru anything If I can get thru this
I can get thru anything
If I can make it thru this
I promise you, I promise you It could be much worse, yeah
But the call is close
Tomorrow's my reason
For today to let go If I can get thru this
I can get thru anything
If I can make it thru this
I can get thru anything If I can get thru this
I can get thru anything
If I can make it thru this
I promise you, I promise you With every ounce of who I am
And I will fight until the end If I can get thru this
I can get thru that
If you cut me wide open
I can cut you some slack If you come when I'm leaving
I might never be back
I know it's not easy
It's a matter of fact If I can get thru this
I can get thru that
If you cut me wide open
I can cut you some slack If you come when I'm leaving
I might never be back
I know it's not easy
It's a matter of fact, yeah If I can get thru this
I can get thru anything
If I can make it thru this
Oh, I can get thru I can get thru this
I can get thru this
I can make it thru this
Oh, I can get thru
