

Hate It

Neverest

Hate it but I love her
Hate it but I want her
Feeling like I need her
Our love, our love was true This is the time I feel it
Here in the middle of the night
Still wide awake and feeling cheated
From a girl I thought was treating me right Hate it but I love her
Hate it but I want her
Feeling like I need her
Our love, our love was true Gotta get away from the feelings I had
Be real you won't be seeing her again
It's complicated when you're feeling so bad
And your girl is still walking away Hate it but I love her
Hate it but I want her
Feeling like I need her
Our love, our love was true
