

Over In Love

Tracy Chapman

Cold wind blows
Shivers loose
Hard rain
To my skin soaked through
So over in love with you
I don't even care
Sky turns grey
Black and blue
Fall on me
I can't be moved
So over in love with you
I don't even care
Hot sun shines

And lays bare
Shadows cross cut
Heavy air
So over in love with you
I don't even care
The tide that washes in and out
Reveals a heart
And face worn new
So over in love with you
I don't even care
I don't even care
I don't even care
I don't even care
