

Tender

[Lisa Hannigan](#)

Tender as a loose tooth
Askew at the root
My love You came up swinging
Every morning
Through it all Tender is a kiss
While the dancers dip and twist
Under lights in the darkness
We take the long way round again
Tender, as a shadow
So fast to follow
A swallow to the summer
Tethered, like a mirror image
A cup and string message
One to the other Tender is a kiss
While the dancers dip and twist
Under lights and the dark
We take the long way round again You came up swinging
Every morning
Through it all
Tender is a kiss
While the dancers dip and twist
Under lights and the dark
We take the long way round again
