Strength and Doubt

Son Volt

It's a full throttle train, an existential bane
It's only grays and blues when nothing else matters
It takes a strong will to keep it caged and still
It's only grays and blues when nothing else mattersSeen it all coming down
In a dream soaked world nothing to fear
Seen it all coming down
Beats that pound and bars to clearSouls for sale in the junkyard
Tales of strength and doubt and how to live without
Pages left blank around the music halls
Didn't find the meaning just answering the callSeen it all coming down
In a dream soaked world nothing to fear
Seen it all coming down
Beats that pound and bars to clear
