

# Adriana

## Repolho

adriana you never saw it coming  
no time to think, much less react to the knife in your back  
go burn a hole in the world , start walking  
i'll be the one when i'm done double talking to you  
take a second now, take the rest of your life  
what's integrity when you can ooze on through to the other side?  
if i put my mind to it i can figure it out  
if i put my mind to it i can figure it out  
if i put my mind to it i can figure it out  
if i put my mind to it i can figure it out  
swarmed without end, how can you even pretend?  
i'll stay you go. outside that i just don't know  
go burn a hole in the world start walking  
i'll be the one when i'm done double talking to you  
take a second now, take the rest of your life  
if i put my mind to it i can figure it out  
what's integrity when you can ooze on through to the other side?  
if i put my mind to it i can figure it out  
if i put my mind to it i can figure it out  
if i put my mind to it i can figure it out  
everyone stop screaming  
just wrap your teeth around me  
and hold me to this line  
(the next time you see, you'll see it will not be me  
the next time you see, you'll see it will not be me)  
these scars are ours for all time  
what's integrity when you can ooze on through to the other side?  
take a second now, take the rest of your life  
if i  
put my mind to it i can figure it out  
if i put my mind to it i can figure it out  
if i put my mind to it i can figure it out  
if i put my mind to it i can figure it out  
if i put my mind to it i can figure it out
