

Been So Long

Brian Mcknight

Oh yeah, crazy how right out of the blue
I bumped into you today
And I forgot the reasons why
Why I went away? Funny how fate opens the door
And destiny walks in
The only thing that I know for sure
Exactly how long it's been 'Cuz baby it's been so long
Since I had you here with me
Baby it's been so long
Baby come to me Do you ever think of us?
And the way it used to be
Late at night, I long for your touch
All the things you do to me They say, it's just like riding a bike
Some thing you never forget
You know all the things I like
Let's see how much harder it gets So, baby it's been so long
Since I had you here with me
Baby it's been so long
Baby come to me They're playing our song
Oh baby now, it might be wrong
Oh baby now, I hope that this night don't end
Oh baby but, it might be right
Oh baby now, right here tonight
Oh baby now, what do you say?
Can you stay? 'Cuz baby it's been so long
Since I had you here with me
Baby it's been so long
Baby come to me Baby it's been so long
Since I had you here with me
Baby it's been so long
Baby come to me Baby it's been so long
Since I had you here with me
Baby it's been so long
Baby come to me
