Cry

That Handsome Devil

At night in the darkest part of my apartment
La de da de da, just sitting on the carpet
No lights in my apartment, digging through the garbage
La de da de da, p-p-p-pretty things I promised

Toss over the TV, knock over the CDs
Bouncin' off the cieling, papa don't you see me?
Shootin' up the TV, stompin' on the CDs
Hangin' from the cieling, momma don't you see me?

There is no magic just the charming little lies
It's gonna make you cry
Cry, cry cry cry

Remember you were young and you cared about shit
You just got older like the rest of it
Remember we were young and we cared about shit
We just got older like the rest of it

We've lost the magic now, it's charming little lies
I'm wanna make you cry
Cry, cry cry cry

{instrumental}

At night in the darkest part of my apartment
La de da de da, just sitting on the carpet
No lights in my apartment, digging through the garbage
La de da de da, this is sounding like nonsense

Remember you were young and you cared about shit
You just got older like the rest of it
Remember we were young and we cared about shit
We just got older like the rest of it

There is no magic just the charming little lies
It's gonna make you cry
Cry, cry cry cry

I wanna make you cry
