Katherine Wheel

Him

Lo and behold, baby
These are the things you make me do
Katherine Wheel, I'm burning for you
I'm burning for you
Come on and break me a limb at a time
Wrap me around your spokes so tight
There's no letting go
Spin me around to blur the line
Between you and I
What are you waiting for?
Lo and behold, baby
These are the things you make me do
Katherine Wheel, I'm burning for you
Please don't stop
Until my heart no longer screams
Katherine Wheel
Katherine Wheel
Holding hands won't be enough
In a world giving head to a God
Love in theory and practice
Chapter one
Lo and behold, baby
These are the things you make me do
Katherine Wheel, I'm burning for you
Please don't stop
Until my heart no longer screams
Katherine Wheel
Katherine Wheel
I twist and turn
Your arms swirl
The dizzier I get the clearer I see
With you I'm at peace with the world within
Lo and behold, baby
These are the things you make me do
Katherine Wheel, I'm burning for you
Please don't stop
Until my heart no longer screams
Katherine Wheel
Katherine Wheel

Lo and behold, baby
These are the things you make me do
Katherine Wheel, I'm burning for you
Katherine Wheel, I'm burning for you
Katherine Wheel
Katherine Wheel
I'm burning for you
