

# Broken

## The Amazing

Send it down to finish them off  
I know they can't outrun it  
Every hour of every day  
Feels and looks the same Do you know the way [?]  
So everything has purpose  
It could be [?]  
I couldn't really tell  
To the point where everything falls  
You know it's getting closer  
The perfect time to give yourself  
Anything but hope It's gonna be a dark [?]  
I don't really care  
It's gonna be a dark [?]  
I don't really care It's broken down, it's broken down  
It's broken down, it's broken down  
Who's gonna be fighting for you?  
(It's broken down, it's broken down)  
Who's gonna be telling you it's ok?  
(It's broken down, it's broken down)  
Who's gonna be fighting for you?  
(It's broken down, it's broken down)  
Who's gonna be telling you it's ok?  
(It's broken down, it's broken down)  
Who's gonna be fighting for you?  
(It's broken down, it's broken down)  
Who's gonna be telling you it's ok?  
(It's broken down, it's broken down)  
Who's gonna be fighting for you?  
(It's broken down, it's broken down)  
Who's gonna be telling you it's ok?  
(It's broken down, it's broken down)
