Save Me

[American Hi-Fi](#)

I've been so low
Yeah I've been so strung out
Can you picture this?I'll take something
It's better than nothing, anything
That you've got to giveI can't let go
I don't want to know
I've been down so long
Could you save me?I'll fight my way
Just to hear you say
If I go up in flames
Could you save me?The more you whisper
The words keep stinging in my ear
We're never gonna be the sameSunshine fading
And black sheets raining down on me
They cover up everythingI can't let go
I don't want to know
I've been down so long
Could you save me?I'll fight my way
Just to hear you say
If I go up in flames
Could you save me?I've been so selfish
I get so high
Don't wanna come downI've been so low
Yeah I've been so strung out
Can you picture this?I can't let go
I don't want to know
I've been down so long
Could you save me?I'll fight my way
Just to hear you say
If I go up in flames
Could you save me?Yeah, could you save me?
Oh, could you save me?
