

Knockout

Milk 'n Blues

All my fears came out and I was alone
I looked and you were gone

Knockout
You knocked me down
And I could barely see you (But you were denied)
I needed more time but I was denied (No no no)
You only told me no

Open your eyes, baby
Beyond the shadow
Can you still see me
Or have I ceased to be?

Open your eyes, baby
Beyond the shadow
Can you still see me
Or have I ceased to be?

Oh time, but what is it for?
You've got these empty eyes (Got these empty eyes)
What good are the lips that don't talk of love?
You....
You say I'm the one to blame

I doubt we were ever one
Not 'us' but 'you and me' (Never really one)
Got nowhere to go in this pointless road
Well... I hope we'll be all right

Open your eyes, baby
Beyond the shadow
Can you still see me
Or have I ceased to be?

Open your eyes, baby
Beyond the shadow
Can you still see me
Or have I ceased to be?

- Harmonica/Guitar Solo -

I can carry on strong
I look back and you were gone
Flying with no wings
Now I've got no fears
I break through the walls
I learned to walk I learned to fall
Running after the sun
Running after what I want

La La La La La La La...
