

# Kings and Queens

## Brooke Fraser

We've got a long way to go  
But we've got the energy  
It took a little while to find, with reality  
We've come a long way you know,  
Living inside a dream  
We can just find that we are kings and queens

Lights out,  
Sometimes this feels like sleeping with the lights on, oh  
The memories stay,  
They loop the lines on endless replay, oho  
I'm sleeping where I fall,  
If I can't sleep it all  
'Cause I wake where I wanna if I waited all  
'Cause even the lights are blurred, reality differ  
And we're chasing down tomorrow, oho

We've got a long way to go  
But we've got the energy  
It took a little while to find,  
With reality  
We've come a long way you know,  
Living inside a dream  
We can just find that we are kings and queens

Ride on,  
Let's catch the dark baby we just gotta ride on, oho  
Don't let the lights through,  
They'll drink your mind and turn your heart to stone  
Forget the wars we fight,  
Forget the tears you cry  
'Cause we'll go when we're gonna burn back  
When we're tonight  
'Cause even the edges fade,  
Between the light and shade  
And we're chasing down forever, oho!

We've got a long way to go  
But we've got the energy  
It took a little while to find, with reality

We've come a long way you know,  
Living inside a dream  
We can just find that we are kings and queens  
Kings and queens, kings and queens

We've got a long way to go  
But we've got the energy  
It took a little while to find  
To find it, to find it, to find it  
We've come a long way you know,  
Living inside a dream  
It took a little while to find  
To find it, to find it, to find it

We've got a long way to go  
But we've got the energy  
It took a little while to find, with reality  
We've come a long way you know,  
Living inside a dream  
We can just find that we are kings and queens  
Kings and queens, kings and queens

We've got a long way to go  
But we've got the energy  
It took a little while to find, with reality  
We've come a long way you know,  
Living inside a dream  
We can just find that we are kings and queens  
Kings and queens, kings and queens
