Baby Boy

Big Brovaz

From the day that I saw you
If knew that we would pursue
'Cause the chemistry we felt that day
Felt so real, and so true
Looking back on a year we spent together
How it?s been, what we went through
Although we?ve had our little ups and downs
We?ve still pulled through
Baby girl you?re my world my everything
I wanna lace you with diamonds and every ring
Give you everything you dream and fantasize
Cause you can tell me that you love me
Looking in my eyes you keep it real with me
I keep it real with you you keep on loving me
I?ll keep on loving you keep doing what you do
I feel your whole aura and I can?t wait to hook up
Again tomorrow baby what
My love for you will never end
You?ll always be a part of me
As long as time keeps on passing by
You?ll always be my baby boy
Every time I look at you, I can?t believe
I?ve found a love so true and I took my time to put my trust in you
I must admit it was so hard to do and every minute that I spend with you
You make me believe I have nothing to loose and
Deep down I always knew that you would be mine
Do you believe in destiny
Because I got a funny feeling this was meant to be
Without you I?d be lost, I need you next to me
Preferably in the house full of luxuries and little kids

From day one I was sprung, knew you was gonna be one
Cause my heart spoke for the very first time in a long while
And every time you smile, I can see us walking up the aisle
With you carrying my child c?mon
My love for you will never end
You'll always be a part of me
As long as time keeps on passing by
You?ll always be my baby boy

If you were to go, I don?t know
You?re the only one who sweeps me off my feet
Makes my soul go weak
The only one who makes my heart wanna beat and I
I could never live without you
You know that what I feel has to be true
'Cause you?re my, my sweet love
Ever since the first time, that I looked into your eyes
I knew that you were gonna be mine
Feeling you from the inside, when you?re not by my side
You?re the only girl that?s on my mind
I never knew a love like this, a love so strong
A vision so picture perfect it could never be wrong
Along the way, you?re gonna see you belong with Jay
I might have to marry you one day baby, yeah
My love for you will never end
You'll always be a part of me
As long as time keeps on passing by
You?ll always be my baby boy
