

We Try but We Don't Fit In

Day Wave

I made a mess with all of my friends
I made a mess, I'll do it again
Hold on, who am I again?
Go on, I just make a mess
All my friends, we're just the same
We all pretend that we're okay I made a mess with all of my friends
I made a mess, I'll do it again We don't fit in
Not even a little bit
We're in between the things
That we're supposed to be We try, we try
We try, we try I made a mess with all of my friends
I made a mess, I'll do it again
I, I'll do it again
I, I'll do it again
We try, we try
We try, we try
I made a mess with all of my friends
I made a mess, I'll do it again
We try, we try
We try, we try
