

Inside Four Walls

Nevermore

Inside four walls I live my life, doesn't matter what I've done
The government's always right
They tell us what to be, they tell us what to believe
They're wrong, my friend is gone
Inside four walls
The day they took away my friend
Injustice made its mark
All the political whores only come out after dark
If anyone knows the way
Build me a bridge so I won't fall astray
Inside four walls
Inside four walls my friend
They took away your freedom
And the pigs still preach their lies
The system falls apart
The pigs still laugh feeding off our broken lives
Can anyone tell me why
Some violent criminals do far less time?
Inside four walls
Inside four walls my friend
They took away your freedom
And the pigs still preach their lies
Inside four walls
Inside four walls my friend
They took away your freedom
And the pigs still preach their lies
Inside four walls
Inside four walls my friend
They took away your freedom
But they'll never take your mind
