

# In Love For A Day

Jordan Pruitt

It was magical, beautiful  
I didn't know how it all began  
One day, 24 hours  
It didn't turn out how I planned 'Cause I did not expect to feel the way  
The way I do from a single day  
And both of us we knew we could not stay  
You had yours, I had mine, separate lives  
But at least we had the night I was in love for a day  
In a way can't explain  
Why you went away  
It's a shame you didn't stay with me Unforgettable, incredible  
I didn't know how to handle it  
I was unprepared, maybe a little scared  
Of something I may never get I was never one to believe  
Love at first sight could get to me  
And maybe if these feelings stay the same  
I'll be with you again someday  
But baby either way I was in love for a day  
In a way can't explain  
Why you went away  
It's a shame you didn't stay with me And maybe someday we will be connected  
It was so powerful, I can't believe it's over yet  
The way you play back in my mind  
Makes it hard to forget you, you, you I know you have your life and I've got mine  
And someday maybe we'll re collide  
But until then, baby I know, I know I was in love for a day  
In a way can't explain  
Why you went away  
It's a shame you didn't stay with me With me, with me, with me, with me  
If you hear me, if you hear me holler  
With me, with me, with me  
If you hear me, if you hear me holler In a way can't explain  
Why you went away  
It's a shame you didn't stay with me  
With me, with me, with me, with me, with me
