

# State of the Union

## Destroyer

If we're the flagship of peace and prosperity  
We're taking on water and about to fuckin' sink  
    No one seems to notice, no one even blinks  
The crew left the passengers to die under the sea  
    Countdown to the very end  
Equality, an invitation that we wont extend  
    Ready aim, pull the trigger now  
It's time you firmly secure your place in hell  
    State of the union address  
Reads war torn country still a mess  
The words, power, death, and distorted truth  
Are read between the lines of the red, white, and blue  
    Countdown to the very end  
Equality, an invitation that we wont extend  
    Ready aim, pull the trigger now  
It's time you firmly secure your place in hell  
    Your place in hell  
    Your place in hell  
Guilty is what our graves will read  
No year, no family, we did nothing  
    To stop the murder of  
    Of people, just like us
