King Kong five

Mano Negra

Listen to the beat beat beat of the song
Song buzzin' in my head, head like a bum dum
Twist and Jerks they do the boogie like one big flopThey don't know about the soul wine habit club
I sing my song and I'm a rocker
Burnin' up with the Puta's fever
Paris Paris is not a place to beFor a little monkey, little frenchy chimpanzee
Who's never been on the scene
I never been on the scene
But I can dream that we standin' aliveWe're the king kong five
Doin' the king kong jive on the Gabony boogie
Now what's the matter with me?
What's the matter with me?
I'm playin' like shakin' under the coconut tree
