

# To The Hilt

## Die Krupps

Woke up - still in a dream  
nothing's the same  
can't pronounce my name  
I open my mouth  
words come out  
that make no sense  
for a stranger's ear  
in a foreign language  
in a foreign land  
now I'm an alien  
on a different planet  
it makes it clear - I understand  
we are all strangers - in a foreign land  
burn the bridges  
forge ahead  
to the hilt  
back home I feel insane  
nothing's the same  
except for my name  
I open my mouth  
words come out  
that make no sense  
for my lover's ear  
in my native language  
in my native land  
I'm still the alien  
on a different planet  
it makes it clear - I understand  
I am a stranger - in my own land
