

# Let's Celebrate

Skyy

Everybody, are you ready to hit the floor?  
People all over get ready to hit the floor, yeah  
I gotta brand new thing and I'm taking you out for more  
Now feel the vibration, my body is aching to move  
So if you think it's cool, come on and do it too  
Let's have a real good time  
Come everybody, let's party tonight  
Come everybody, let's party tonight  
Let's celebrate, we just can't wait  
Things can only get better  
Now we got the motion, get into the groove with me, yeah  
You know it feels so good and baby, that's all that we need  
The whole world is shaking, the rhythm is making it move  
Oh yeah, so if you think it's cool, I'll take you right on through  
Let's have a real good time  
Come everybody, let's party tonight  
Come everybody, let's party tonight  
Let's celebrate, we just can't wait  
Things can only get better  
Party tonight  
Come everybody, let's party tonight  
Let's celebrate, we just can't wait  
Things can only get better  
So if you think it's cool, have a real good time  
Hey
