Unwritten Law

Let's go
Well, I remember the way when we used to play
All our troubles seemed so far away, yeah
That was when I lived from day to day
Do you remember a time when all on our minds
Was having fun and catching a buzz? Yeah
That was life for you and for me
Woah, I want it back
Woah, I want it back now
I've got my life to live now
Looking back now at my only true friends
And asking myself why these times had to end
Well, I'm lil' older now than I was then

And it makes no sense to try and deny it
There's no use to try and defy it
That's the way life goes for you and for me
Woah, I want it back
Woah, I want it back now
I've got my life to live
(Let's go)
Woah, I want it back
Woah, I want it back now
I've got my life to live now
Yeah, right now, woah, right now
Yeah, right now
