Anything Goes

Gravity Co.

Im making a stand for the possible
Been chained on command, a household pet
To gain my ground, I touched the floor
I bite my tongue, fetch some ballsChase-tail spinning round and round like a train
Juiced by the bell Im apartment trained
Played again and again
Till you were see-throughThe deal was sealed
But I stopped biting
Youre surprised
Anything goesYou played to steal
Now Im beta blocking
Sure I can
Anything goesTry take it in stride youve done all you can
Charmed snakes to the ground with mind-trick stare
Youve had your fun its time to draw
My goodbye kiss is your cue to crawlPushed to the side think youll get back in
Id never buy cause I just dont care
Dead and dirty within
Is how I see you
