Northern Star

Ollabelle

Northern star
It'll be my guide
Lead us [Incomprehensible] across
And its promises fall behindSmokes stack lightning on the dark
Lights of temper coming to view
See the old fields burn
Burned away, memories of youStars shine, linger in the dawn
Moon and I, tryin' to hold on
Tryin' to hold onHey, they [Incomprehensible]
Promises a brand new day
She sings sun will rise
Chase this darkness awayHear the words grow faint
Falling out of range
There's more truth in this day
And the beating of the rainStars shine, linger in the dawn
Moon and I, tryin' to hold on
Stars shine, linger in the dawn
Moon and I, tryin' to hold onDon't you go, don't you go
(Stars shine, linger in the dawn)
Don't you go, don't you go
Don't you go, don't you go
(Moon and I, tryin' to hold on)
Don't you go, don't you go
Tryin' to hold on
