

Green and Blue

[**Mikal Cronin**](#)

it's in anomoly, this land inside of me, though my mind's all tied up it's breathing trough
dichotomy may be majority, but my world's not black&white;, it's green&blue;

let my body go

i'm fallin into it, and losing interest it the world we used to know i'm seen trough

and i go running through the city a? spectacle of modern enginuity, don't go

let my body go
