

Broken Drum (Remix by Boards of Canada)

Beck

I see you there
Long black hair
Your eyes just stare
Your mind is turning You know I'll laugh
I won't take it back
I've seen your eyes
I know what your thinking
We'll shoot our guns
We'll have fun
Don't ever doubt it And when I say
"Fare thee well,
My only friend"
Oh, how the days go
Oh, how the days go Your setting sun
Your broken drum
Your little drugs Never forget you
Never forget you
Never forget you
