

As long as I fall

Halloween

I close my eyes so I don't have to see
I shut my heart and tell my mind to run and flee
Once I was flying, flying, flying high
I touched the skyAs long as I fall, I don't hit the ground
As long as I fall, I'm safe and sound
As long as I fly, I sure cannot die
I don't need to hear the call as long as I fallWould I have time to change reality
I would become the man, the man I could never be
Oh, my God please tell me how to break free
Once I was flying, flying, flying high
I touched the skyAs long as I fall, I don't hit the ground
As long as I fall, I'm safe and sound
As long as I fly, I sure cannot die
I don't need to hear the call as long as I fall
As long as I fallAs long as I fall, I got no reason to care
As long as I fall, I got no problem to bear
I don't need to bother what I did or did not
I would cry out in pain butAs long as I fall, I dont hit the ground
As long as I fall, Im safe and sound
I dont need to face no blame or disgrace
No reason to change at allAs long as I fall, I dont hit the ground
As long as I fall, I'm safe and sound
As long as I fly, I sure cannot die
I don't need to hear the call as long as I fall
