

# When You Say My Name

## The Overtones

Monday a long day  
Startin' off the wrong way  
Runnin' on empty  
Faith and black coffee  
You left early  
Gotta get the bills paid  
I miss your face baby  
I just can't wait  
'Till we're all alone  
And this mad world fades away  
When you say my name  
Everything comes alive  
Take the darkest room  
And you turn on the lights  
When you touch my hand  
You're telling me a secret  
Only we can understand  
When you say my name  
Say my name  
Say my name  
When you say my name  
Say my name  
Say my name  
Hard times heartache  
Got the strength that love makes  
Somehow someway  
Gonna find it someday  
No matter what life brings  
I know it's gonna be okay

When you say my name  
Everything comes alive  
Take the darkest room  
And you turn on the lights  
When you touch my hand  
You're telling me a secret  
Only we can understand  
When you say my name  
Say my name

Say my name  
When you say my name  
Say my name  
Say my name  
It's such a sweet kiss  
My name on your lips  
Oh  
I can't resist it  
I can't resist it  
No no no  
Mmm yeah  
When you say my name  
Everything comes alive  
Take the darkest room  
And you turn on the lights  
When you touch my hand  
You're telling me a secret  
Only we can understand  
Only we can understand  
Say my name  
Say my name  
When you say my name  
Say my name  
Say my name
