White Line Fever

Melissa Otero

Oh baby tonight is the night
Drunk and foolishly you'll become mine
I've put on my leather heels and drank some wine
You're gonna love the back seat
Enjoy, enjoy the rideWhite line fever, I'm hypnotized
Oh! White line fever, I dream of you and I
That I crumble in the dark
I crumble in your arms
White line fever, white line feverOh baby, it's getting warm
This fantasy is out of control
It all dissapeared now
Where oh where is the road
Just blow a kiss and love me some moreWhite line fever, I'm hypnotized
Oh! White line fever, I dream of you and I
That I crumble in the dark
I crumble in your arms
White line fever, white line feverKnowing I'm your bitch
Turns me on more than a light bulb switch
Knowing I'm your bitch
Turns me on more than a light bulb switchWhite line fever, I'm hypnotized
Oh! White line fever, I dream of you and I
That I crumble in the dark
I crumble in your arms
White line fever, white line fever
