

# The Witches Plague

## Bewitched

Armageddish nights of war and damnation  
Fires from hell cast upon earth  
Soak my blessing of evil salvation  
Infernal curse foresee the rebirth In the absence of the holy spirit  
Bow before the horned ones arise  
No earth for you to inherit  
Peace and lights earthly demise Ghoulish macabre blasphemy damned withing sorcery  
Heaves gate you'll never see ancient burning flame  
You're driven fucking insane  
Lambs of Christ will die kneeling lame Kill in thrill in blood and hate  
The spell of hell and wicked fate
