

Try And Stop Me

Teenage Fanclub

(Pickett/Phillips)

I got no time to talk to me
Pass the time of day
I've got to pack my bag to see
Gotta get upon my way now
You're the kind of girl you see
Always hanging around
You hung around much too long
Now I've got to bring you down
Try and stop me understand
Try and stop me if you can
Try and stop me understand
Try and stop me if you can

You never try to resist
The things before your eyes
You just grab at everything,
Never compromise
You missing where it ends
The going got too rough
You couldn't hold me if you tried
I know when I've had enough
Try and stop me understand
Try and stop me if you can
Try and stop me understand
Try and stop me if you can
