Get in the Van

2 Skinnee J's

CHORUS
Here we go on the road
That's all we have to know
Cause we be steadily stomping at every showJ put your hands up
J pull your mic out
And tear off the roof 'til ConEd turns the lights out
So here we go, beats and flow, to and fro, Coast to coast
Act like you know when the crew takes the flow
Cause we travel through minds across times across lands
So pack up your stuff kid and get in the vanit's incredible, sometimes it's so close i can taste it
then it seems so far away i can't face it. embrace it!
to chase it we take to city streets and interstates
with frames of featherweights and heavy beats on our plates
we roll into town like thunder
commando band of stand-outs handing out propaganda
it's outlandish how small minds have big range
and loud voices - it's time for a change!
and it comes from the people - are you with me?
who stand up and challenge the authority - come get me
watch the flock drop yellin' hit me like britney, spineless and mindless
while out in the yard rocking hard's where you'll find us
'cause we've spent years where the adventurous be
ask 'em who enters their headspace, they'll mention me
go round for round, but understand fully
i rebound like the class clown after being pounded by bulliesCHORUS
