

Figure It Out

VersaEmerge

With a swerve, my eyes avert
My mouth somehow forgets to work
So I stare until you shout
Wondering why you can't figure me out
With a change, recall the names
I'm spitting out words, hoping it works
Still I stare while they all shout
Why can't I even figure it out?
The time I'm wasting
Can't say where I've been
Catching my same old way
Slowly spin beneath the day
Your time I'm wasting
Can't say where we've been
'Cause it seems to me that
Nothing's what it's ever meant to be
With my fate, my thoughts erase
My head's a blur, the picture fades
Eyes, they keep on shutting down
Can't see why you won't figure me out
The time I'm wasting
Can't say where I've been
Catching my same old way
Slowly spin beneath the day
Your time I'm wasting
Can't say where we've been
'Cause it seems to me that
Nothing's what it's ever meant to be
Why can't you figure me out?
With a twist
My mind has missed
You said that I'd forget
The time I'm wasting
Can't say where I've been
Catching my same old way
Slowly spin beneath the day
Your time I'm wasting
Can't say where we've been
'Cause it seems to me that
Nothing's what it's ever meant to be
Your time I'm wasting
Can't say where we've been
'Cause it seems to me that
No one's ever who they're meant to be
