

Exogenesis: Symphony, Pt. 1: Overture

Muse

Aping my soul,
You stole my overture,
Trapped in Gods program,
Oh I can't escape

Who are we?
Where are we?
When are we?
Why are we?
Who are we?
Where are we?
Why, why, why?

I can't forgive you,
And I can't forget

Who are we?
Where are we?
When are we?
Why are we?
Who are we?
Where are we?
When are we?
Why are we in here?
