Advisory - the following lyrics contain explicit language:

(Verse)

See I'm on a mission
Tryna elevate ya
Show you things that you ain't never seen
I see your potential
You can really go far
Baby all you need is your show wings
I can really take you there if you want to
Higher than you ever been baby
Just let the smoke clear, let me take the other then
I'll take you farther than you ever been(Pre-Chorus)
Bet you I'll get you flying out your seat
No ceilings when you are fucking with me
Where we going ain't for everybody
This world of violence, no diamonds like me(Chorus)

Uh huh

Okay, we bout to levitate
We bout to levitate
This is that song you levitate
This is that song when you can't get out yo seat, you can't feel your face
Going past higher, we plankin in space
Levitate (Levitate...)
We bout to levitate

This song you levitate(Verse)

I'm about to get you higher than you ever been
I'mma get you so far you gon tell a friend
Feeling so sweet, you thought it was a swisha
Feet off to leave the ground it ain't gon miss ya
Again, going harder than you ever been
You ain't never coming down again
You gon be so gone when
I'ma push it on ya

You're not gon remember how you got so farther(Pre-Chorus)

Bet you I'll get you flying now you'll see

No ceilings when you are fucking with me

Where we going ain't for everybody

This world of violence, no diamonds like me(Chorus)

Aha

Okay, we bout to levitate

We bout to levitate

This is that song you levitate

This is that song when you can't get out yo seat, you can't feel your face

Going past higher, we plankin in space

Levitate (Levitate...)

We bout to levitate

This song you levitate(Bridge)

And now baby we gone

You ain't frontin

Man, move out my, move out my, move out my way

Where we going ain't for everybody

Come down, we ain't comin down

No, no way

We ain't comin down

No, we gon levitate

We ain't comin down

No, no, no way

We ain't comin down

No, no, no way(Chorus)

Uh huh

Okay, we bout to levitate

We bout to levitate

This is that song you levitate

This is that song when you can't get out yo seat, you can't feel your face

Going past higher, we plankin in space

Levitate

We bout to levitate

This song you levitate
