Midnight Train

Vince Gill

I'm a long, long way from my home
Mendin' a broken heart
Runnin' away from a love gone wrong
Tryin' to make a new start
An old friend called me up to say
That you've made some wedding plans
I'm comin' home on that midnight train
Fight for you like a man
Midnight train make your whistle blow
Engineer pour your load of coal
Midnight train make your engine whine
Midnight train get me home on time
Oh, the thought of another man holdin' you
Is drivin' me insane
My only chance is to ride all night
I can't let you change your name
Now, hey, conductor we can't be late
Rollin' on down the track
'Cause you know tomorrow's your wedding day
Gotta win my baby back
Midnight train make your whistle blow
Engineer pour your load of coal
Midnight train make your engine whine
Midnight train get me home on time
Ah, let's go
Midnight train make your whistle blow
Engineer pour your load of coal
Midnight train make your engine whine
Midnight train get me home on time
