

It's On!

Bradley Leighton

Come on Save some for me, it's what I like
I wanna play, you know it's time
Something is calling
I can't keep from falling Come on
It's on Now see it's my fault
Angels stabbing me inside
Nothing changes
Just rearranges for me this time Once I cave in, what can I fight?
I can never win, my self I don't like
I don't like, I don't like, I don't like
Something is calling, I can't keep from falling Come on
It's on You see it's my fault
Angels stabbing me inside
Nothing changes
Just rearranges for me this time This time, this time
For me inside, put me inside
Hold me this time, put me inside
Come on, it's on Come on, it's on
Come on, it's on
Come on, come on
It's on
