

# Young Love

Gavin Degraw

There's no need to beg babe, that's my open pocket  
You take the money from me, I can scrounge  
Gave me a fever that will not come down, oh babe  
You're a young woman cast aside  
Ostracized, left on the side walk of my lonely life  
For the young lovers taking the hill  
One plants the flag while the other is killed  
When the wine pours we raise our cups  
Young love is sacrifice, young love is tough  
Young love is innocent, young love is us  
What did I get into, now everything is untrue, oh  
Your eyes tell the lies of the lines that you said  
Now that I love you, waoh, I wish we never met  
Why wait? Woman I'm taking risks here that no one dared  
And you're scared, scared of the bottom, afraid of the stairs  
For the young lovers taking the hill  
One plants the flag while the other is killed  
When the wine pours we raise our cups  
Young love is sacrifice, young love is tough  
Young love is innocent, young love is us  
Someone, I saw someone and fell in love with a face  
And it scares me to let it go  
Still want her even though I get less than she takes  
For the young lovers taking the hill  
One plants the flag while the other is killed  
When the wine pours we raise our cups  
Young love is sacrifice, young love is tough  
Young love is innocent  
For the young lovers taking the hill  
One plants the flag while the other is killed  
When the wine pours we raise our cups  
Young love is sacrifice, young love is tough  
Young love is innocent, young love is us  
Young love is innocent, young love is, is yeah
