I Know

Skrape

I'm not impressed out but it might seem to look that way to you
I can impress I can try to come off cool
And if you drag me into feeling like I'm tired of you
I wouldn't care even though it might seem to look that wayDon't tell me now I know
I'll figure it out on my ownI'm not in check but I don't show what I say to you
I never flinch never care I know I'm cool
And if you drag me into feeling like I'm tired of you
I wouldn't care even though your in front of meDon't tell me now I know
I'll figure it out on my ownDon't you think you know you might
This offering my friends invite
Go ahead and face what's mine
The end of you I wash the slimeDon't tell me now I know
I'll figure it out on my ownDon't you think you could
Don't you think you might
